

# Freshest Data

Changes to NavAids

Changes to Tides & Currents

Changes to Marinas

Unlimited **Free** updates to your Navionics chart for one year!

- **Increased Accuracy** — Access Navionics' most current database for updated Notices to Mariners, Tides and Currents, Port Plans, Points of Interest and more.
- **Faster Redraw Speed** — Whether you cruise at 5 knots or 50 knots, new Navionics updates are optimized for the fastest redraw speeds available.

Go to Navionics web store on  
**navionics.com**

## Get the Freshest Data... Here's how:

- **Go to:** [www.navionics.com](http://www.navionics.com)
- **Select: Web Store.** Insert your eligible Navionics chart into the card reader on your PC.
- **Select: Get the Freshest Data** (Plotter Image).
- **Select: Download Now.** You will be notified when the download is complete. Download time will vary with chart size.

Note: For media types with a locking device, be sure to unlock your card before inserting into a card reader. Eligible Navionics memory cards in CF format will require an external card reader.

### *Your Navionics chart now contains the Freshest Data. Enjoy!*

Freshest Data updates include Navionics' most current database with updated Notices to Mariners, Points of Interest, tides & currents, port plans, new data sets and more.

Update your chart as often as you like for one year!
