## **NEW NAVIONICS+ CHART CUTS FOR UK AND IRELAND**

**Nine Regions Offer Expanded Coverage For The Same Price**

**January 10, 2018** – Navionics, the leader in content and location-based services for the recreational boating market, announced today the release of nine new Navionics+ Small coverage areas for UK and Ireland.

The new, wider coverage areas are being offered at the same price of £149 per region. They provide Nautical Chart, SonarChart™ 0.5 m HD bathymetry map, and Community Edits. Daily chart updates and advanced features are included for one year.

“Clearly a tremendous value for boaters, the coverage areas of the new Navionics+ Smalls are as much as double the size of those offered in the past, allowing boaters to take full advantage of the outstanding capabilities of Navionics+ at a very affordable price point,” said Lance Godefroy, General Manager, Navionics UK.

Navionics charts are updated every day with official information, while SonarChart™ and Community Edits are continuously enhanced by regular contributions from fellow boaters. To keep their charts current, customers can download updates anywhere within the coverage area from [navionics.com](http://navionics.com).

New coverage areas include:

- 822 Portland to Walton-on-the-Naze**
- 824 Ireland North, Scotland West**
- 825 Waterford to Aran Island**
- 826 Irish Sea and Scotland South West**
- 827 Scotland North and East, Faroe Islands**
- 828 Littlehampton to Scarborough**
- 829 Falmouth to Chichester**
- 830 Liverpool to Exmouth**
- 849 Southend to Anstruther**

## Availability
