SUPPORTING A WAVE OF INNOVATION

We continue to collaborate with marine industry leaders, including DAME 2018 nominees, that rely on Navionics cartography to deliver content and features that enable boaters to get the most out of their time on the water.

Garmin BlueChart® g3 and BlueChart® g3 Vision

Garmin owners can upgrade to a new line of cartography products for coastal and inland boating that blends the best Garmin and Navionics content to deliver unparalleled coverage and detail.

Digital Yacht iAIS App with Navionics Integration

With an active Navionics subscription, iAIS app users can view real-time iAIS data over detailed Navionics charts for a better understanding of their surroundings.

Raymarine ClearCruise™ Augmented Reality

Axiom owners using ClearCruise can overlay navigational aids from the Navionics database on the video display and view Navionics detailed charts in split-screen, to quickly see their position on the map in relation to the image appearing on the Axiom screen. And they can use Dock-to-dock Autorouting¹ at the same time.

BOATING APP NOW OFFERS FISHING RANGES

The newest feature of the Navionics Boating Marine & Lakes app, Fishing Ranges lets anglers customize and display up to 5 depth ranges on the SonarChart™ map layer simultaneously to quickly and easily locate new fishing spots and save them for another trip.

¹ This feature is for planning purposes only and does not replace safe navigation operations

About Navionics®

Navionics, a Garmin® Ltd. company, develops and manufactures electronic navigation charts of marine areas, lakes, and rivers around the world for use in GPS chartplotters and mobile devices. Navionics, based in Viareggio, Italy, operates a U.S. headquarters in New Bedford, Massachusetts, and worldwide offices in the UK, India and Australia.
